

SmartBark™ Dog Parks, with XTerraTurf™ Synthetic Turf

SmartBark™ Dog Parks provide an environmentally-friendly way to accommodate dogs and their owners, featuring XTerraTurf™ as the perfect grass that always looks beautiful, never has brown spots or mud, and can be disinfected. Match this with a Dogipot dispenser or two, some benches, perimeter fencing, perhaps a pet and owner water fountain, and you have yourself a fully functional SmartBark Dog Park!

It's nice for pet owners to have a place to enjoy their dog, getting that much needed area to run freely without a leash, socializing with other canine cohorts. Entre-Manure, LLC provides the perfect one-stop source, with a complete turnkey solution for a SmartBark dog park for your community.

SmartBark Dog Park Features:

- ◆ Dogipot Bag Dispensers & Receptacles
- ◆ XTerraTurf Synthetic Turf Installation
- ◆ Site Amenities (Benches, Water / Pet Fountain, Shade Structures, etc.)
- ◆ Perimeter Fencing / Entry Gates

Tame your unused areas, transforming them into useful SmartBark dog parks that provide years of enjoyment for pets and their owners, in an environmentally responsible way. All it takes is just one phone call to Entre-Manure, LLC, and we'll be happy to provide a layout plan and quotation to meet your site requirements.

Entre-Manure, LLC can also provide nationwide Dogipot Valet Service, stocking replacement bags and servicing the stations on a weekly basis.
